

Nancy Richeal
Transformonial for Christine St. Clair
9-27-10

I've worked with Christine for over 12 years, completing a variety of window covering projects including black out drapes for our media room, wooden shutters, and Hunter Douglas shades. Starting with a clear vision of what I want Christine never disappoints; she consistently and flawlessly delivers excellence every time.

Expert at spotting when things won't work, she offers effective alternatives to achieve the look and functionality I want. My installer, whom I've used for 30 years, has noted that when Christine writes up an order it's clearly written, well thought-out and always absolutely right.

In a heartbeat, I'd call Christine to order additional window coverings. Attention to detail and beautifully creating my vision, there's no need to call anyone else.
